(c) To receive notification of a new site submission from Ryedale District Council

Members received notification of the new site which was the large parcel of land lying to the east of Norton adjacent to the Norton Grove Industrial Estate and stretching as far as the A64 bypass.

Members were firmly against the potential of development, as with all other sites in the town as significant problems still remain concerning, congestion, air quality, inadequate sewer capacity, flooding and drainage and these should be addressed and fixed before any further development. It was also contested that this site does not have any bearing with the current shape of the town.

The clerk to inform Ryedale District Council of member's objections.

190. (03/16) **BAZLEY'S LANE**

Members discussed various issues with traffic using this lane, and many possible ways in which the problems could be solved. Including further reducing the speed limit to 20mph, installing traffic calming measures at either end, and even installing physical chicanes to prevent lorries' from accessing the lane.

It was agreed that the best way forward was to invite Mr Marr, the Area 4 Highway Manager, or one of his senior colleagues to attend a meeting with members, and also make a site visit.

Members received a copy of the response from North Yorkshire County Council to Councillor Keal's letter.

Councillor Mrs Keal stated that the response was as expected. Also that there was still no sign of the gully being installed under the railway line which would then allow for the pumps to be installed.

Members also felt that if a meeting with Mr Marr was to be arranged perhaps road surface issues could be addressed as well.

Members received a report detailing the proposals and costings for the floral displays in Commercial Street, Church Street and on the County Bridge for summer 2016.
